ALL YOU NEED TO KNOW>>>

The combination of adventure, yoga and surfing might otherwise be known as the ultimate balance.

This retreat will bring you pure happiness and is the best way to improve your surfing, move your body and have fun.

With a full week of surfing, you are bound to see progress in your surfing ability, with yoga helping your body and mind prepare for the surf and also recover/reset.

Although the retreat mainly focuses on surfing & yoga, it is not limited to this... other activities include a coastal hike, a sunrise SUP tour, + much more... You'll also have plenty of time to taste local cuisine, have some girl time, chill by the pool, explore the area and hang out with great people!

Believe us when we say you'll walk away feeling like you've had the best week of your life with the girls, full of fun, laughter & good times!
